## Introduction

#### **Firmware Information**

This Firmware Upgrade is specifically intended for users with the Alpine iLX-W650E. There is one firmware update per unit. If you are unsure if you need this update please contact your nearest Alpine dealer.

Note: The update is not required for Alpine units with Firmware versions 1.004\_0818 (December 2020) or higher.

#### **Requirements and limitations**

- · Windows XP / Windows 7 / Windows 8 / Windows 10
- · Formatted USB flash drive with a minimum capacity of 1 GB

## **Update Instructions**

#### Precautions

• Do NOT switch off the vehicle / switch off the unit's power nor remove the USB flash drive during the update process.

• Do NOT use compressed zip-files for update and do NOT change file names.

• Do NOT store any other folders and files on the USB stick

• Do NOT operate the Alpine unit whilst updating nor update the Alpine unit while driving

• The unit is updated via USB connection. Plug in the USB flash drive into the USB socket of the Alpine unit to initialise the update

### Performing the update

 $\mathbf{1}$  Un-zip the downloaded folder into the root directory of the USB flash drive.

**2** Turn the vehicle on and plug in the USB flash drive into the USB socket of the Alpine unit.

**3** Go to the 'INFORMATION' page via the below menu steps and select 'Firmware Upgrade' from the display.

 $\mathsf{SETUP} \longrightarrow \mathsf{INFORMATION}$ 

Information	12:10 AM	The second	49
